

iPECS2Teams

Power Microsoft Teams with iPECS Cloud

iPECS2Teams is a Cloud Service that connects your Microsoft Teams users to iPECS Cloud, just like a regular extension. No hardware or software required.

What is iPECS2Teams?

Enable users to benefit from the fully collaborative Microsoft Teams experience and add market-leading telephony functionality from iPECS Cloud. Your Microsoft Teams client connects to iPECS Cloud just like a regular extension. There's no hardware or software to install and it can be set up in minutes. Bring all users together in one platform by using Microsoft Teams for collaboration, messaging and voice communications.

Why customers use iPECS2Teams

- Deliver the Teams calling experience to users without needing any hardware or software
- Extend call recording and call analytics to Microsoft Teams users.
- A simple monthly subscription Cloud service that can be delivered to selected users or groups

True Teams Experience

- Add calling to Teams to increase productivity
- Work on desktop and mobile to free your workforce
- The native Teams calling experience is familiar to users

Give users the best of both worlds.

Simple Deployment

- Whether it's a new or existing iPECS Cloud deployment you get to use and rely on industry-leading features with no compromises
- No Hardware or Software to install centrally or on user's PCs
- Implement the solution to users and groups that need it

Can be deployed in hours.

Enterprise Level Service

- Global infrastructure in Microsoft Azure
- Around the clock monitoring and support
- Enterprise grade encryption and security built-in

Low risk, non-disruptive, cost effective.

With iPECS2Teams you can deliver a voice solution that combines Unified Communications and teamwork

Simplified IT in the Cloud delivers flexibility

- Reduce the number of applications needed for users to get the job done
- Increase working flexibility and efficiency – it is expected that up to 72% of workers will be working remotely by 2021
- Lower support costs and higher productivity

iPECS2Teams brings Microsoft Teams to life

- Voice enabled collaboration is driving in excess of a 50% increase in collaborative work
- Up to 80% of employee time is spent collaborating and almost 60% connect to meetings using mobile phones
- Business goals are more quickly achieved when people enjoy working together

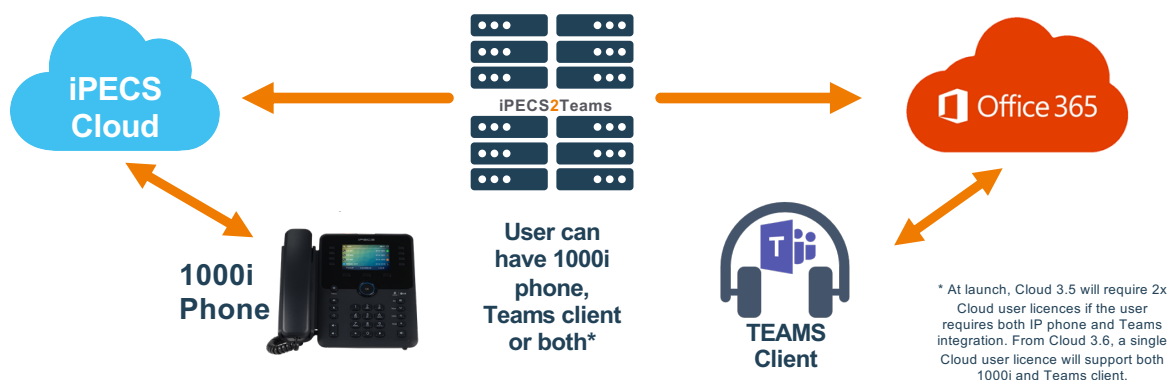

Maximise your iPECS Cloud investment

- Whether you are just moving to iPECS Cloud or adding to an existing deployment it will deliver wide-ranging business services to many types of users
- Leverage your iPECS Cloud current investment to power Office 365
- Making Microsoft Teams integrate with current business processes can multiply the benefits of collaboration and integration

- **Discover a new way of doing things**
- **Using iPECS2Teams is the quickest and easiest way to bring calling to your Teams users**
- **Why not give it a try?**
 - ✓ Redefine how your iPECS Cloud platform is used
 - ✓ iPECS2Teams can be evaluated without disruption
 - ✓ Evaluate the service for 25 users for 30 days*
 - ✓ Discover the boost your team workers get from a new way of collaborating

* Please note that this 30-day evaluation period is specific to the Teams Integration for iPECS Cloud. It does not cover an evaluation of iPECS Cloud or Microsoft Teams.

Provide enhanced collaborative tools for your teams to deliver a true productivity boost for your projects

- Leverage existing or new iPECS Cloud voice services to power the latest Microsoft Teams features
- Streamline the number of tools your users need to use, reducing cost, administration and training
- Take advantage of the latest enhanced communications to save costs and increase the level of service your users enjoy
